To whom it may concern

Dear Sir/Madam,

Good day Human Resources Department!

I am interested in any IT (Information Technology) related work in your company. I believe that I am well qualified as an encoder or even a programmer, possessing Bachelor's Degree in Computer Science gained at the Laguna College.

I have experienced Web Programming during my OJT/Internship, the duties and responsibilities assigned to me while I am in my training are designing, coding and modifying web application according to business needs, implement and enhance existing applications that extract information from the web, email and files, execute tests and QA processes to ensure high quality results/output, and I also performed additional duties as required during my internship.

I have the ability to adapt to new environment easily in terms of programming and in environment, I have knowledge in different programming languages such as .Net, HTML, CSS, JavaScript, Android NDK, PHP and basic skill in Java programming.

With my skills, achievements and experience in programming while I am in college, I know that I can do the IT (Information Technology) related job when I become part of your company. I look forward to hearing from you at your earliest convenience to further discuss my qualifications as a Programmer or an IT worker. Thank you for your time and consideration.

Sincerely,

Rommel M. Lagurin

LAGURIN, ROMMEL M.
